

WATCH Mould Cleaner in action

CUTEK® Mould Cleaner is an environmentally friendly, biodegradable mould killer.

CUTEK® Mould Cleaner kills mould and brightens timber by removing mould stains from the surface of wood and other substrates.

CUTEK® Mould Cleaner sterilises surfaces for further applications of CUTEK® oils, and is suitable for cleaning timber where mould may be present.

Environmentally minded

Environmentally friendly and biodegradable mould killer

Safe formula

Chlorine-free oxygen bleach

Economical

A little goes a long way

Powerfully kills mould

Kills mould and removes staining from substrates

Easy to use

DIY friendly with a professional result

IMPORTANT INFORMATION

CUTEK® Mould Cleaner is an environmentally friendly, biodegradable mould killer. When used according to instructions, it will kill mould and prepare the substrate for CUTEK® oil. Other stubborn staining, like iron stain, may not be removed. For difficult stains and natural timber colour restoration, use CUTEK® Restore.

ALWAYS test product on a small test area prior to applying to any large sections. As the species and condition of the timber can vary significantly, testing will enable you to accurately estimate the time and amount of CUTEK® Mould Cleaner required to complete your project. If there is any visible residual mould after proper cleaning, repeat the cleaning process and/or adjust the cleaning technique. CUTEK® Mould Cleaner is not recommended for spot-cleaning as a slight lightening of the timbers colour may occur and become evident when compared to the surrounding substrate. Surfaces which require multiple applications of CUTEK® Mould Cleaner should receive a fresh coat of CUTEK® oil to refresh the look and maintenance of the timber. NOTE: Some mould spores are not visible to the naked eye, so cleaning a substrate with CUTEK® Mould Cleaner prior to coating can improve the coating's performance.

PRECAUTIONS

Before you begin to Prepare and Protect your timber, note the hazards and precautions and ensure that you have obtained and know how to use the correct safety equipment. CUTEK® Mould Cleaner is a hazardous chemical. It is important to refer to the health and safety considerations listed in the Safety Data Sheet (SDS) prior to commencement of your project. When using CUTEK® Mould Cleaner, all adjacent surfaces and vegetation must be adequately protected.

It is also important to be aware of the potential for wind drift into areas with cars or pedestrian traffic when rinsing. Water flush all equipment, vegetation, paths, concrete, asphalt and other adjacent surfaces before and after contact.

DO NOT SWALLOW

A full list of precautions and the SDS is available at www.CUTEK.com.au
